

## Year 3 Workplan (O

OSSWG Goal	Activities
<b>GOAL 1 Promote healthy behaviours and advocate and evaluate policies and regulations to reduce sun/UV radiation exposure.</b>	1. Evaluate Bill 30. (Jennifer (lead) Loraine, Thomas, Sasha, Cathy, John, Jennifer Mc, Susan, Caroline Crawley (CCO) and Cheryl R. )
	2. Continue to implement recommendations and share findings from Sun Safety at Work Canada report (Thomas, Cheryl P.)
	3. Promote sun safe policies in provincial government. (Thomas, Susan)
<b>GOAL 2 Lead or support sun/UV radiation research and initiatives:</b> Support research and initiatives relevant to the objectives of the OSSWG by endorsing existing work or through leading / participating in the development and / or production of relevant material.	1. Identify existing population data data and gaps therein for burden of skin cancer and UV related eye diseases; economics of UV related disease and prevention; and UV behaviours; develop and implement a plan to address. <b>I do not believe we addressed this activity in years 1 and 2. It would be a big project. Recommend we change this activity to Lead or support sun/UV radiation research and initiatives</b>

	2. Plan UV conference, Spring 2018 (Thomas, George)
	3. Disseminate Act 30 pre/post survey report findings (Loraine, Thomas, Jennifer, Susan, Cheryl R, John)
	4. Compile evidence to determine the effectiveness of shade. (Georgeanne, George, Cathy, Jennifer, Lynn)
<b>GOAL 3: Support the development and delivery of consistent public health approaches.</b> To reduce the prevalence of adverse health effects of UV exposure.	1.Skin Cancer Prevention Messaging Project. (Gina, Maria, Jennifer, Sasha G, Sonya M, Thomas, Cathy)
	2. Winter Fact Sheet Project
	3. Develop Shade Toolkit resource to increase shade in municipalities and school boards (Georgeanne, Cathy, George, Jennifer)

<b>GOAL 4 Increase the profile of OSSWG as a credible source of Sun/UVR information and support.</b>	1. Complete revision of new website and increase awareness among stakeholders. (Susan, Thomas, Maria, Jennifer)
<b>GOAL 5: Raise awareness of the effects of solar and artificial UVR on human health</b>	1. Increase knowledge and support through facilitation of ongoing knowledge exchange on workplan initiatives and UVR issues.

## ct2017 - Sept 2018)

Tactics	Update/Outcomes
<p>1. finalize and launch the public health unit survey about the Skin Cancer Prevention Act; 2. disseminate results of our research findings (past and present); and 3. brainstorm and seek funding for additional research related to indoor tanning policy.</p>	<p>1. Survey conducted spring 2018. 2. Results shared at 4th International UV &amp; Skin Cancer Conference, May 2018</p> 
<p>Thomas and Cheryl Peters are members of National Working Group planning to raise awareness through relaunch of website and webinar. <b>Thomas to add in Tactics for Year 3</b></p>	
<p>1. Secure student to undertake scan of relevant stakeholder ministry policies in order to identify gaps and opportunities. 2. Engage ministry in KTE. Determine who to target and the ask. 3. Consider fit with PSQI</p>	<p>Student working on this project to be completed by August 2018</p>
<p>Submit proposal to CCSRI for UV research funding</p>	<p>Waiting for response <b>What is update on this?</b></p>

Assist as required to secure resources, assist with planning and organization, etc.	Conference happened in May 2018!  
Tactics have been completed. Next steps are to compile evidence to further support case for resources. One of the activities in Year 3 is the survey of PHUs on enforcement (1.1)	Report completed and disseminated!  
Find a student to compile evidence	Maria Chu (CCO) may have a student Sept 4, 2018 - Susan asked Maria for an update
Rehost messaging Webinar through CCO / PHO to promote messages (spring 2017)	Loraine and Maria presented at PHO on Apr. 27, 2017  
1. Develop a SS fact sheet for the Winter using new messages for use by public health units across Ontario. 2. Translate into French. 3. Disseminate the Winter fact sheet	Fact sheets developed and approved. Translated into French.  Health Canada agreed to update their webpages.   Subcommittee will meet ad hoc to update the toolkit as needed.
Secure student to undertake scan of existing shade policies, practices and tools across Ontario. 1. Evaluate existing practices. 2. Assess and develop additional tools to assist public health to support municipalities and schools boards to increase shade.	Where are we with this?

<p>1. Create new website featuring new logo and graphic elements. House all OSSWG minutes, agendas, terms of reference and workplans in a secure page on the site with member only access. 2. Next step is to promote the OSSWG website through organic social media promotion. Susan to lead in development of social media plan and procedures for implementation and monitoring.</p>	<p>New website completed. Twitter account launched</p> 
	<p>This goal is achieved through webinars, resource development, policy recommendations, research, conference presentations, the website etc.</p>
